KOL Insight: Multiple Sclerosis

Introduction

Recent launches of oral therapies have brought clinical advantages and clear patient benefits and are set to transform the treatment of Multiple Sclerosis (MS). The question is, which products will rise to become first choice treatments in relapsing forms of the disease and which products have potential for progressive forms of the disease?

Multiple Sclerosis - Oral therapy takes centre stage is a comprehensive Therapy Trends report packed with knowledgeable opinions and insights of 12 leading US and European KOLs on current and future products, why and when they would use them and the competing clinical benefits and challenges each one has.

This report provides a complete and inclusive analysis of current and late stage MS drugs and expert insights to give essential decision support intelligence for marketers, researchers and planners.
