Inferior Vena Cava Filters - Europe Analysis and Market Forecasts
BioPortfolio has been marketing business and market research reports from selected publishers for over fifteen years. BioPortfolio offers a personal service to our customers with dedicated research managers who will work with you to source the best report for your needs. Based in the UK, BioPortfolio is well positioned to coordinate our customers' orders sourced from over 50 global report publishers.

We are pleased to present details of this report to assist your buying decision and administrative process. You will find easy-to-use How To Buy information on the last page of this document.

**We look forward to being of service to you.**

If you have bulk and/or recurring requirements, please get in touch - we can liaise with publishers to obtain sample pages and negotiate discounts on your behalf.

Inferior Vena Cava Filters - Europe Analysis and Market Forecasts

Summary

Venous thromboembolism (VTE) is a potentially lethal disease consisting of two related conditions: deep vein thrombosis (DVT) and pulmonary embolism (PE). There remains a small subset of patients with absolute or relative contraindication to anticoagulation, at high risk of embolism, or prone to PE despite adequate anticoagulation. For these patients, physicians may opt to place an inferior vena cava filter (IVCF) as a therapeutic or prophylactic treatment.

This report focuses on the market outlook for IVCF in Europe (France, Germany, Italy, Spain, Russia, UK). The market forecast for this technology is determined for the region covered in the report.

*This is an on-demand report and will be delivered within 4 working days (excluding weekends) of the purchase.

Highlights

Key Questions Answered

- What is the current and future IVCF market outlook in the developed and emerging markets? What trends are affecting the European market?
- Which are the key, high growth markets that manufacturers should expand into? Which markets are growing the fastest, and what are the top-selling products in each segment?
- What are the unmet needs with the current generation of devices? How will emerging technologies fulfill these unmet needs?
- What clinical factors and technical specifications influence a physician to use one type of device over another? What is physician perception and market outlook for IVCF?
- What are the challenges that have hindered widespread adoption of newer technologies?
- With developing the next-generation of devices, what aspects of the technology are device manufacturers focused on optimizing? How will new entrants impact the IVCF market?

Scope

- Overview of recent key industry events and analysis of their market impact.
- Annualized total market revenue by type of device, procedure trends, and market outlooks by segment and by region through 2022.
- Key topics covered include strategic competitor assessment, market characterization, identification of unmet needs, reimbursement and regulatory considerations, evaluating market access in each region covered in the
- Pipeline analysis: Comprehensive data split across different stages of development, including a discussion of emerging trends and devices in development.

- Analysis of the current and future market competition in the European IVCF market. Insightful review of the key industry drivers, opportunities, barriers and challenges. Each trend is independently researched to provide qualitative analysis of its implications.

Reasons to buy

- “What Physicians Think” quotes provide a unique insight into how healthcare professionals are reacting to events within the industry, and what their responses could mean for industry strategists. In this report you will understand the perceptions of leading vascular surgeons and interventional radiologists from around the world. This information is essential for all strategic decision makers in every organization allowing them to act on high quality information.

Table Of Contents for Inferior Vena Cava Filters - Europe Analysis and Market Forecasts

- 1 Table of Contents
  1.1 List of Tables
  1.2 List of Figures
- 2 Introduction
  2.1 Related Reports
- 3 Market Access
  3.1 Reimbursement Trends
  3.1.1 Europe
  3.2 M&A/Key Partnerships
- 4 Unmet Needs and Market Opportunity Analysis
  4.1 Minimizing Post-Deployment Complication Rates
  4.2 Optimizing Retrieval Success Rates
  4.3 Resorbable Inferior Vena Cava Filters
  4.4 Robust Clinical Data for Prophylactic Filter Use
- 5 Competitive Assessment
  5.1 Market Share Analysis
  5.2 Key Companies & Product Profiles
    5.2.1 ALN
    5.2.2 Argon Medical Devices
    5.2.3 B. Braun
    5.2.4 Boston Scientific
    5.2.5 C.R. Bard
    5.2.6 Cook Medical
    5.2.7 Cordis
    5.2.8 Volcano
    5.2.9 Other Players
  5.3 Pipeline Products Assessment
  5.4 Clinical Trials to Watch
- 6 Market Outlook
  6.1 Procedure Trends
  6.2 Global Market Drivers and Barriers
    6.2.1 Driver: Increasing Filter Retrieval Rates
    6.2.2 Driver: Favorable Procedural Reimbursement in the US
    6.2.3 Driver: Increasing Number of High-Risk Patients
    6.2.4 Barrier: Increasing Adoption of Drug Treatment
    6.2.5 Barrier: Skepticism from Vascular Specialists
  6.3 Market Outlooks by Geography
    6.3.1 Europe
- 7 Appendix
  7.1 Bibliography
  7.2 Abbreviations
  7.3 Methodology
    7.3.1 Overview
    7.3.2 Coverage
    7.3.3 Secondary Research
  7.4 Forecasting Methodology
  7.5 Primary Research
  7.6 About the Authors
    7.6.1 Premdharan Meyyan, Cardiovascular Analyst, Medical Devices
    7.6.2 Linda Tian, MSc, Managing Analyst, Medical Devices
    7.6.3 David Brady, Director of Operations - Market Research
    7.6.4 Tyler Fletcher, Global Head of Medical Devices
  7.7 About GlobalData
