Global Disposable Medical Supplies Market is valued approximately USD 55.60 billion in 2018 and is anticipated to grow with a healthy growth rate of more than 6.93% over the forecast period 2019-2026. Disposable medical supplies consist of medical apparatuses, devices, or consumables that are intended for one time or temporary use in medical settings. These supplies are an essential component in hospital settings, as they save staff time and reduce healthcare-associated

costs. Few examples of disposables medical supplies include bandages & wraps, drug tests disposables, exam gowns, face masks, gloves, suction catheters, surgical sponges, hypodermic needles, syringes, and applicators among others. Increasing demand disposable medical supplies to provide safety from infections and contamination is one of the major factors responsible for high CAGR of the market. Increasing surgical procedures is one of the factor that offers growth opportunities. Also, rising prevalence of diseases and growing awareness regarding the importance of maintaining health & hygiene is contributing towards growth of global Disposable Medical Supplies market. However, environmental concerns associated with the improper disposable of medical waste is one of the major factor that anticipated to hamper the market growth during the forecast period.

The regional analysis of global Disposable Medical Supplies market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region across the world in terms of market share owing to growing geriatric population, highly developed healthcare infrastructure and rising number of ambulatory facilities in the region. Europe also contributes a significant growth in the global Disposable Medical Supplies market during the forecast period. Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2019-2026 due to rising number of diagnostic treatment and ambulatory surgery across the region.

Terumo Corporation

Smith's Group plc

The objective of the study is to define market sizes of different segments & countries in recent years and to forecast the values to the coming eight years. The report is designed to incorporate both qualitative and quantitative aspects of the industry within each of the regions and countries involved in the study. Furthermore, the report also caters the detailed information about the crucial aspects such as driving factors & challenges which will define the future growth of the market. Additionally, the report shall also incorporate available opportunities in micro markets for stakeholders to invest along with the detailed analysis of competitive landscape and product offerings of key players. The detailed segments and sub-segment of the market are explained below:

By Type:

Diagnostic Supplies

Dialysis Consumables

Radiology Consumables

Infusion Products

Intubation & Ventilation Supplies

Hypodermic Products

Sterilization Consumables

Nonwoven Medical Supplies

Wound Care Consumables

Others

By Application:

Hospitals

Clinics/Physician Offices

Assisted Living Centers & Nursing Homes
