Global Mobile Water Treatment Market Size study with COVID-19 Impact, by Type (Membrane Mobile Water Treatment, Resin Mobile Water Treatment and Filtration Mobile Water Treatment), by Application (Power and Energy, Construction, Agriculture, Chemicals, Mining and Minerals, Municipal and Other) and Regional Forecasts 2020-2026

BioPortfolio has been marketing business and market research reports from selected publishers for over fifteen years. BioPortfolio offers a personal service to our customers with dedicated research managers who will work with you to source the best report for your needs. Based in the UK, BioPortfolio is well positioned to coordinate our customers' orders sourced from over 50 global report publishers.

We are pleased to present details of this report to assist your buying decision and administrative process. You will find easy-to-use *How To Buy* information on the last page of this document.

We look forward to being of service to you.

If you have bulk and/or recurring requirements, please get in touch - we can liaise with publishers to obtain sample pages and negotiate discounts on your behalf.

Global Mobile Water Treatment Market Size study with COVID-19 Impact, by Type (Membrane Mobile Water Treatment, Resin Mobile Water Treatment and Filtration Mobile Water Treatment), by Application (Power and Energy, Construction, Agriculture, Chemicals, Mining and Minerals, Municipal and Other) and Regional Forecasts 2020-2026

Global Mobile Water Treatment Market is valued approximately at USD XX billion in 2019 and is anticipated to grow with a healthy growth rate of more than XX% over the forecast period 2020-2026. Due to Covid-19 pandemic, Mobile Water Treatment market is facing challenges because temporary shutdown of manufacturing and industrial sector across the world. Mobile water treatment services deliver or circulate highly purified water through a system which is generally mounted on a long vehicle and transported to critical industrial applications. These services are reliable, fast and cost-effective as well as ideal solution in critical situations. Mobile Water Treatment is used in wide range of end use industries such as chemical processing, oil & gas, pharmaceuticals, energy & power, mining & mineral processing, etc., for multiple use like boiler water, process water from cooling tower, steam blows, etc. The increasing instances of water contamination throughout the globe, shortage of water in dry areas and depletion of fresh water resources are the few factors responsible for growth of the market over the forecast period. Furthermore, introduction of innovative products and other strategic alliance by various market player will create a lucrative demand for this market. For instance, as per company's news release in October 2017, SUEZ acquired GE Water & Process Technologies. This acquisition will broaden the product portfolio as well as range of technologies and patents. However, cost factors involved in the fabrication process as well as implementation process of mobile water treatment solution is the major factor restraining the growth of global Mobile Water Treatment market during the forecast period.

The regional analysis of global Mobile Water Treatment market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. North America is the leading/significant region across the world. Whereas, Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2020-2026.

Major market player included in this report are:

Aquatech International LLC

GE Corporation

Aqualyng

Ecolutia Services

Ramky Group

Evoqua Water Technologies LLC

Orenco Systems Inc

The objective of the study is to define market sizes of different segments & countries in recent years and to forecast the values to the coming eight years. The report is designed to incorporate both qualitative and quantitative aspects of the industry within each of the regions and countries involved in the study. Furthermore, the report also caters the detailed information about the crucial aspects such as driving factors & challenges which will define the future growth of the market. Additionally, the report shall also incorporate available opportunities in micro markets for stakeholders to invest along with the detailed analysis of competitive landscape and product offerings of key players. The detailed segments and sub-segment of the market are explained below:

By Type:

Membrane Mobile Water Treatment

Resin Mobile Water Treatment

Filtration Mobile Water Treatment

By Application:

PowerandEnergy

Construction

Agriculture

Chemicals

Mining and Minerals

Municipal

Other

By Region:

North America

U.S.

Canada

Europe

UK

Germany

Asia Pacific

China

India

Japan

Latin America

Brazil

Mexico

Rest of the World

Furthermore, years considered for the study are as follows:

Historical year – 2016, 2017, 2018

Base year – 2019

Forecast period – 2020 to 2026

Target Audience of the Global Mobile Water Treatment Market in Market Study:

Key Consulting Companies & Advisors

Large, medium-sized, and small enterprises

Venture capitalists

Value-Added Resellers (VARs)

Third-party knowledge providers

Investment bankers

Investors

Additional Details
