Global Water Filter Housing Market Size study with COVID-19 impact, by Type (Reverse Osmosis, Ozone Water Purifier, Activated Carbon, Distiller), by Application (Environmental Protection, Chemical Industry) and Regional Forecasts 2020-2026

Global Water Filter Housing Market is valued approximately USD 10 billion in 2019 and is anticipated to grow with a healthy growth rate of more than 15.9% over the forecast period 2020-2026. A water filter is increasingly used for household purpose to remove impurities by lowering contamination of water by means of a fine physical barrier, a chemical process, or a biological process. The use of water filter housing has been rising with the increase in the number of people which have gained access to pure drinking water. This scarcity of drinking water has fueled the way for development in the water purifier industry. Since water-related complications are gradually penetrating the league of severe environmental and global concerns. Thus, growing number of government bodies to maintain water quality for protecting environment, rising awareness among people towards health due to increasing water-borne diseases and improving standards of living of people are the few factors responsible for high CAGR of the market over the forecast period. For instance, the U.S. Environmental Protection Agency (EPA), which also administers the Clean Water Act (CWA) and the National Pollutant Discharge Elimination System (NPDES). NPDES issues permits to all wastewater facilities and directs them to protect the environment by establishing monitoring and reporting requirements and specific discharge limits. To certify drinking water quality, the EPA also formed the Safe Drinking Water Act (SDWA). The EPA sets the standards and regulates the localities and states, and water suppliers who execute the standards. Most water and wastewater processing and purification takes place at the local level. This in turn is expected to fuel the adoption for water testing & analysis instruments in environmental applications all over the globe. Amidst the COVID-19 outbreak and the strict measures implemented by the government on the movement of people, goods & services will have a short-term impact on the water filtration industry thus, less impacting to the growth of water filter housing industry around the world. In addition, high equipment and maintenance cost is constantly consider as a major restraining factor to the market growth over the forecast period of 2020-2026.

The regional analysis of global Water Filter Housing market is considered for the key regions such as Asia Pacific, North America, Europe, Latin America and Rest of the World. Asia-Pacific is the leading/significant region across the world in terms of market share owing to rising demand of household products for water filtration, and the scarcity of clean water in the region. Whereas, Asia-Pacific is also anticipated to exhibit highest growth rate / CAGR over the forecast period 2020-2026, due to the presence of large population, along with growing government initiatives towards maintaining water quality in the region.

Major market player included in this report are:

Mitsubishi

Sartorius

Pall

3M

Pentair

Parker

Meissner Filtration Products, Inc.

Harmsco

Eaton

Katadyn

The objective of the study is to define market sizes of different segments & countries in recent years and to forecast the values to the coming eight years. The report is designed to incorporate both qualitative and quantitative aspects of the industry within each of the regions and countries involved in the study. Furthermore, the report also caters the detailed information about the crucial aspects such as driving factors & challenges which will define the future growth of the market. Additionally, the report shall also incorporate available opportunities in micro markets for stakeholders to invest along with the detailed analysis of competitive landscape and product offerings of key players. The detailed segments and sub-segment of the market are explained below:

By Type:

Reverse Osmosis

Ozone Water Purifier

Activated Carbon

Distiller

By Application:

Environmental Protection

Chemical Industry

By Region:

North America

U.S.

Canada

Europe

UK

Germany

Asia Pacific

China

India

Japan

Latin America

Brazil

Mexico

Rest of the World

Furthermore, years considered for the study are as follows:

Historical year – 2016, 2017, 2018

Base year – 2019

Forecast period – 2020 to 2026

Target Audience of the Global Water Filter Housing Market in Market Study:

Key Consulting Companies & Advisors

Large, medium-sized, and small enterprises

Venture capitalists

Value-Added Resellers (VARs)

Third-party knowledge providers

Investment bankers
