BioPortfolio has been marketing business and market research reports from selected publishers for over fifteen years. BioPortfolio offers a personal service to our customers with dedicated research managers who will work with you to source the best report for your needs. Based in the UK, BioPortfolio is well positioned to coordinate our customers' orders sourced from over 50 global report publishers.

We are pleased to present details of this report to assist your buying decision and administrative process. You will find easy-to-use *How To Buy* information on the last page of this document.

We look forward to being of service to you.

If you have bulk and/or recurring requirements, please get in touch - we can liaise with publishers to obtain sample pages and negotiate discounts on your behalf.

Global Low Density Polyethylene (LDPE) Market by Application (Food Packaging, Pharmaceutical Packaging, Consumer Goods Packaging, Industrial Packaging, Agriculture, Construction, Medical), by Geography – Analysis & Forecast to 2019

The global LDPE market is estimated to grow at a CAGR of 3.8% from 2014 to 2019. The Asia-Pacific region holds the largest share of the global LDPE market as of 2014 and is expected to grow at the fastest CAGR of around 6% during the forecast period, 2014 to 2019.

In this report, the LDPE market has been broadly classified on the basis of application and geography. The application segment is divided into food packaging, pharmaceuticals packaging, consumer goods packaging, industrial packaging, agriculture, construction, medical, other packaging, and others non-packaging. On the basis of geography, the market has been segmented into North America, Europe, Asia-Pacific, and Rest of the World (RoW).

The food packaging segment is the fastest-growing segment of the global LDPE market, among applications, projected to grow at a CAGR of nearly 3% from 2014 to 2019. Factors such as the growing demand in the manufacturing, automotive, food packaging, textiles, and adhesive industries are expected to drive the growth of the global LDPE market in the coming years.

The LDPE market is a competitive market with a number of market players. As of 2014, are Sealed Air Corporation (U.S.), Amcor Limited (Australia), Bemis Company (U.S.), Jindal Polyfilms Limited (India), Toyobo Co. Limited (Japan), AEP Industries Inc. (U.S.), Berry Plastics Group Inc. (U.S.), Saudi Basic Industries Corp. (Saudi Arab), and Toray Industries Inc. (Japan), among others, are the key players operating in the global LDPE market. New product launches, partnerships, agreements, collaborations, and joint ventures are among the major strategies adopted by most market players to achieve growth in the LDPE market.

Reasons to Buy the Report:

From an insight perspective, this research report has focused on various levels of analysis—market share analysis of top players, supply chain analysis, and company profiles, which together comprise and discuss basic views on the competitive landscape; emerging and high-growth segments of the LDPE market; high-growth regions and countries, and their respective regulatory policies; and market drivers, restraints, and opportunities.

The report will enrich both the established firms as well as new entrants/smaller firms to gauge the pulse of the market, which in turn will help the firms to garner a greater share of the market.

The report provides insights on the following pointers:

- Market Penetration: Comprehensive information on LDPE offered by top players in the global market
- Product Development/Innovation: Detailed insights on upcoming technologies, research & development

activities, and new product launches in the LDPE market

- **Market Development:** Comprehensive information of lucrative emerging markets; the report analyzes the markets for LDPE across regions
- **Market Diversification:** Exhaustive information of new products, untapped geographies, recent developments, and investments in the LDPE market
- **Competitive Assessment:** In-depth assessment of market shares, strategies, products, and manufacturing capabilities of the leading players in the global LDPE market

MicroMarketMonitor provides deep dive insight into 5000 granular markets along with the updates. The MMM Reports are uniquely differentiated by its ecosystem analysis (value chain) analysis for each granular market. It provides pictorial methodology along with the market sizing at each market capturing all dependent markets (demand side), macro indicators (demand side), and supplyside company data. The Report Plots all the dependent cascaded market with their growth/slow down indicators, which influences revenues of the targeted market. The report provides you competitive landscape, competitive profile along with the competitive SWOT analysis. The report also provides Customer landscape identifying the top customers for the target market. It plots market landscape of the technologies, ingredients, vendors servicing the target market including the cannibalization of the prevailing technologies/products.
