BioPortfolio has been marketing business and market research reports from selected publishers for over fifteen years. BioPortfolio offers a personal service to our customers with dedicated research managers who will work with you to source the best report for your needs. Based in the UK, BioPortfolio is well positioned to coordinate our customers' orders sourced from over 50 global report publishers.

We are pleased to present details of this report to assist your buying decision and administrative process. You will find easy-to-use *How To Buy* information on the last page of this document.

We look forward to being of service to you.

If you have bulk and/or recurring requirements, please get in touch - we can liaise with publishers to obtain sample pages and negotiate discounts on your behalf.

North America Seamless Heat Exchanger Tubing Market By Type (Copper Alloy Tubes, Austenitic Steel Tubes, Duplex Steel Tubes, Ni-Alloy Tubes), By End User (Chemicals, Petrochemicals, HVAC & Refrigeration, Food & Beverages, Oil & Gas, Power Generation, Others), By Geography (U.S., Canada, Mexico) – Analysis & Forecast to 2020

The North American seamless heat exchanger tubing market is expected to witness growth during the forecast period, 2015 to 2020, owing to development of new grades of materials used for manufacturing heat exchanger tubes to cater to the requirements of various end users. There are two types of heat exchanger tubes, namely, seamless heat exchanger tubes and welded heat exchanger tubes. The North American seamless heat exchanger tubing market is witnessing steady growth on account of technological advancements and demand for seamless heat exchanger tubes in various end user industries. The North American seamless heat exchanger tubing market was at USD 752.5 million in 2014 and is projected to reach USD 1.07 billion by 2020, at a CAGR of 6.0% from 2015 to 2020. The U.S. led the North American seamless heat exchanger tubing market in 2014. Rapid growth of various end user industries in the U.S. is among the factors fueling the growth of the seamless heat exchanger tubing market in the U.S. The key players in the North American seamless heat exchanger tubing market include, Sandvik AB, VALLOUREC, JFD Tube & Coil Products, Inc., Webco Industries, Inc., Fine Tubes Ltd., OSTP, TUBACEX S.A., Penn Stainless, Langley Alloys Ltd., National Specialty Alloys, Inc., and PM International Suppliers, among others.

MicroMarketMonitor provides deep dive insight into 5000 granular markets along with the updates. The MMM Reports are uniquely differentiated by its ecosystem analysis (value chain) analysis for each granular market. It provides pictorial methodology along with the market sizing at each market capturing all dependent markets (demand side), macro indicators (demand side), and supplyside company data. The Report Plots all the dependent cascaded market with their growth/slow down indicators, which influences revenues of the targeted market. The report provides you competitive landscape, competitive profile along with the competitive SWOT analysis. The report also provides Customer landscape identifying the top customers for the target market. It plots market landscape of the technologies, ingredients, vendors servicing the target market including the cannibalization of the prevailing technologies/products.
