Middle East Well Intervention Market by Service Type (Logging & Bottom Hole Survey, Tubing/Packer Failure & Repair, Stimulation, Artificial Lift, Others), Application (Onshore & Offshore), & Country - Analysis & Forecast to 2019

Well intervention services are required throughout the lifespan of an oil & gas well. Worldwide increase in E&P activities and new areas of unconventional resources are the main drivers for the growth of the well intervention services market. However, issues associated with the environment, and increased seismic activities have slowed down the growth of this market.

The growth in the well intervention market is directly proportional to the stimulation activities of the existing mature oilfields. On the basis of various factors such as, geological condition, type of reservoir, and other factors different types of well intervention services are required to assist the production activities.

This report estimates the well intervention services market in terms of value in \$ million. This has been broken down into component and further split into countries. We have used various secondary sources such as encyclopedia, directories, and databases to identify and collect information useful for this extensive commercial study of the Middle East well intervention services market. The primary sources, experts from industry and suppliers have been interviewed to obtain and verify critical information as well as to assess the future prospects of the well intervention services market.

The report covers the Middle East well intervention services market which includes different types of well intervention services, their application areas, and other related segments. It studies the extent of end-use of well intervention services in different application areas with respect to different countries. The report gives insights about the tools and technologies being used. It also analyses the market with respect to drivers, opportunities, and winning imperatives related to the industry.

We have also profiled leading players of this industry with their recent developments and other strategic industry activities. These include Baker Hughes (U.S.), Halliburton Co. (U.S.), Schlumberger (U.S.), and Weatherford International (Ireland), and others.

This report also provides competitive landscape of key market players with its developments, mergers and acquisition, expansion and investments, agreements and contracts, new services and technologies developments, and others. Number of developments is spotted by the key industry players which suggest the growth strategy of these companies as well as overall industry.

Furthermore, the major participants within the well intervention services market are profiled in the report. This gives details about the company which include company overview, financial details, services & products, strategy, and recent developments.
