Neuropathic Pain - Pipeline Review, H1 2017
Neuropathic Pain - Pipeline Review, H1 2017

BioPortfolio has been marketing business and market research reports from selected publishers for over fifteen years. BioPortfolio offers a personal service to our customers with dedicated research managers who will work with you to source the best report for your needs. Based in the UK, BioPortfolio is well positioned to coordinate our customers' orders sourced from over 50 global report publishers.

We are pleased to present details of this report to assist your buying decision and administrative process. You will find easy-to-use *How To Buy* information on the last page of this document.

*We look forward to being of service to you.*

*If you have bulk and/or recurring requirements, please get in touch - we can liaise with publishers to obtain sample pages and negotiate discounts on your behalf.*

Neuropathic Pain - Pipeline Review, H1 2017

Summary

Global Markets Direct’s latest Pharmaceutical and Healthcare disease pipeline guide Neuropathic Pain - Pipeline Review, H1 2017, provides an overview of the Neuropathic Pain (Central Nervous System) pipeline landscape.

Neuropathic pain, or neuralgia, is a condition in which the sensory system is affected. It is commonly accompanied by tissue injury. The nerve fibres could be damaged resulting in the generation of abnormal signals. Neuropathic pain is also exhibited along with many other diseases. The symptoms might include shooting pain and numbness. Several factors are involved in causing neuropathic pain however there seems to be no specific reason. Trauma, kidney disease, alcoholism, infections, stress etc may lead to painful symptoms. The condition may be controlled by the use of medications and psychological therapies.

Report Highlights

Global Markets Direct’s Pharmaceutical and Healthcare latest pipeline guide Neuropathic Pain - Pipeline Review, H1 2017, provides comprehensive information on the therapeutics under development for Neuropathic Pain (Central Nervous System), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Neuropathic Pain (Central Nervous System) pipeline guide also reviews of key players involved in therapeutic development for Neuropathic Pain and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Pre-Registration, Phase III, Phase II, Phase I, Phase 0, Preclinical, Discovery and Unknown stages are 1, 6, 24, 29, 1, 117, 27 and 3 respectively. Similarly, the Universities portfolio in Phase I, Preclinical and Discovery stages comprises 1, 35 and 1 molecules, respectively.

Neuropathic Pain (Central Nervous System) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct’s proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Note: Certain content / sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

Scope

- The pipeline guide provides a snapshot of the global therapeutic landscape of Neuropathic Pain (Central Nervous System).
- The pipeline guide reviews pipeline therapeutics for Neuropathic Pain (Central Nervous System) by companies and universities/research institutes based on information derived from company and industry-specific sources.

- The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

- The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

- The pipeline guide reviews key companies involved in Neuropathic Pain (Central Nervous System) therapeutics and enlists all their major and minor projects.

- The pipeline guide evaluates Neuropathic Pain (Central Nervous System) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

- The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

- The pipeline guide reviews latest news related to pipeline therapeutics for Neuropathic Pain (Central Nervous System)

Reasons to buy

- Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

- Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

- Find and recognize significant and varied types of therapeutics under development for Neuropathic Pain (Central Nervous System).

- Classify potential new clients or partners in the target demographic.

- Develop tactical initiatives by understanding the focus areas of leading companies.

- Plan mergers and acquisitions meritoriously by identifying key players and it’s most promising pipeline therapeutics.

- Formulate corrective measures for pipeline projects by understanding Neuropathic Pain (Central Nervous System) pipeline depth and focus of Indication therapeutics.

- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

- Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.
